GLOBAL BLOCKCHAIN SUMMIT 2019

Blockchain Technology has taken the world by storm and has impacted businesses throughout the world. As blockchain technology evolves, new ideas and use cases have appeared around the world and the technology has made leaps and bounds in terms of usability. Businesses, and even governments have taken note of blockchain's ability to resolve key problems facing them today and many are investing to develop applications and solutions based on blockchain.

The Global Blockchain Summit 2019 will be held on the 29 - 30 July 2019 at the Ritz Carlton Hotel, in Jakarta, Indonesia. It will look at key developments in applications and use cases and showcase how blockchain technology can be used to improve efficiency, security, and transparency. It will also address some of the key challenges to blockchain adoption and also highlight some of the latest developments like the integration of blockchain to Artificial Intelligence and IOT.

This important summit is organized by KADIN, the Chamber of Commerce and Industry in Indonesia, the Blockchain Center of Excellence and Education (BCEE), the Global Blockchain Investment Alliance, the Hong Kong Blockchain Association, and the World Token Issuing Alliance (WTIA).
